DEMONSTRATION

Saturday 12 March 2016

2pm at Johanneskirche Freiburg

For human rights without borders! Against deportations and the great anti-refugee coalition!

We advocate refugee politics that takes human rights seriously. The upcoming elections offer no possibility for that, as all parties in Baden-Württemberg were part of the large coalition that recently established major restrictions to the rights of refugees. Further austerity measures are being planned.

Instead of feeling shame for the many deportations, whereby the police violently remove refugees from the country, we now see politicians applauding the fact that the number of deported people doubled last year. **People are deported back to even Afghanistan.**

Anyone taking the demand for “fighting the causes of flight” seriously should turn against this economic system that robs numerous people of necessities of life and is responsible for the mass flights. Exporting weapons should be banned!

We object to the concept of “safe countries of origin”, whose sole, dangerous purpose is to divide refugees into wanted and unwanted ones, and then disenfranchise the unwanted, prevent them from integrating socially, and deport them more quickly.

We call for assuming the historical responsibility toward the Roma people from the Western Balkans so that they be recognized as a discriminated minority and received as refugees.

We call for an opposition to the right-wing populism that is increasingly starting at the middle of the society as well. **Racism must be fought against firmly, nipped in the bud! It is budding...**

Together with the arriving people, we must fight for social rights, affordable living, and sufficient income – for us all!

Numerous refugees in Freiburg, particularly from Serbia, Macedonia, and Kosovo, are threatened by deportation. **We call for hampering and preventing the deportations, if necessary also by means of civil disobedience.**

We will not give in no matter what the outcome of the elections. We align ourselves with the refugees and want to together with you take a stand of solidarity:

Actively united against racism and deportations!
